(a) Under Intensive Cattle Development Project, Shillong and Tura:- 15.99

Thousand numbers of Improved calves were produced during the year in different areas of the State through Artificial Insemination programmes implemented under this Scheme. During the year under report **27.49** thousand artificial inseminations were carried out in the State to produce improved calves for augmenting Milk production. Frozen semen Technology has been introduced for Artificial Insemination programmes. Two Liquid Nitrogen Plants have been installed at Upper Shillong & Tura for such purposes.

(b) The Department has been implementing various schemes for Cattle development which include distribution of calves, heifer, cows and young bulls to the selected farmers falling under different categories of General, Educated Un-employed youth and also for Small / Marginal Farmers and Agricultural Laborers. Implementation given in Annexure-I

4.3 Poultry Development: - The objective of the scheme is to meet the requirement of breeding stock, table and hatching eggs. This also aims at improving the local breed by distribution of improved breed. **13 poultry farms** have been established with the purpose of demonstration and production. Regional Poultry Breeding Farm, Kyrdemkulai, Central Hatchery cum Poultry Farm, Umsning and Poultry Farms at Rongkhon, Jowai & Nongstoin have hatcheries for producing chicks for distribution to different District Poultry Farms and the farmers and other integrated private agencies for extension of poultry development programmes in the State. A broiler chick production unit is also one of the objectives under poultry development to produce 1(one) lakh broiler chicks per annum to meet the local demand. Achievements of Poultry Farms are shown in the Table – 2.

(a) The Regional Poultry Breeding Farm and Broiler Farm established at Kyrdemkulai produced **68.15** Thousand layer Chicks and **12.65** Thousand Broiler Chicks respectively. These Chicks were supplied to Government Poultry farms established at different Districts as well as to private Farms for raising their stock.

(b) Schemes for Subsidy for Poultry unit General, Educated Un-employed Youth and Assistance to SF/MF/AL for rearing of Poultry is also in existence. Implementation is given in Annexure-I

4.4 Piggery Development: - Pig is one of the most important species among the small animal in the State and pig rearing is the most common occupation with the tribal people of the State. The suitability of the climate, fondness to pork among the major section of the State population and availability of good market for pork promise wide possibilities of development of the pig industry in the State. But the main drawback in this sphere is that most of the farmers prefer to rear inferior quality of stock of non-descript breeds. About 88% of the total villages reared are non-descript local breed and only 12% reared Cross Bred pig.

With a view to upgrade local stock, the Department of Animal Husbandry and Veterinary has taken up schemes to introduce improved breeds of pigs such as Saddle back, Hampshire, etc. These improved breeds of pigs are kept at Government pig farms located in every district for the purpose of demonstration as well as for producing better stock for supply to the interested farmers. A Regional Pig Breeding Farm was established at Kyrdemkulai during the 7th Plan period in the year 1986-87 with financial assistance from N.E.C. The farm, which is now under the State plan, is maintaining Hampshire breed pigs for scientific breeding purpose. The farm produced piglets and supply to all the District farms for raising and multiplication and for supply of these piglets to farmers. Under Piggery Development there were **13 (Thirteen) pig farms** including the Regional Pig Breeding Farm Kyrdemkulai established in the State. The stock position and achievement of Government Pig Farms is shown in Table – 3.
