Dear veterinary family members,

It is my great pleasure to extend to you my sincerest wishes on embarking on the next step in our department journey. From long time the veterinarians were in need of such complete and handy book on Administrative and Clinical aspect.

This pdf is enriched with many important topics required by the veterinarians. For VAS working in the dispensaries this pdf would surely be informative and ready reckoner. The information in the book will also be helpful for differential diagnosis.

The important features of the pdf is that the highly administrative matter have been presented in simple acceptable link. And also covers what actually veterinarians looking for in the administration.

Don't be afraid of making mistakes, Everyone makes mistakes but mistakes are an important part of learning something new in the field. It's the moment when you refuse to give up that define your character and set the stage for your success.

I hope this pdf meet your demand well and invigorated with a passion for learning. Hopefully this link book would prove to be of tremendous value for the Veterinary Assistant Surgeon for enriching their knowledge and enhancing their skills.

I strongly recommend this handbook for veterinarians working in different veterinary institutions.

As a VAS we must have the broad knowledge about departmental administration section and we must know all the programmes implemented in the society. We should not limit ourselves to providing treatment to animals.

Where there is unity there is always victory. Where there is teamwork and collaboration, wonderful things can be achieved.

“ UNITY IS STRENGTH “

  
( DR.S.SATHEESKUMAR -B.V.Sc & A.H )
